## GENERAL LEAVE TO EXTEND

Mr. FORRESTER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

*SAC*

## A VICTORY FOR THE FORCES OF FREEDOM

(Mr. ROGERS of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROGERS of Florida. Mr. Speaker, the recent overthrow of Joao Goulart and his pro-Communist government in Brazil is indeed a victory for the forces of freedom. It is also a disastrous defeat

for Fidel Castro and his brand of Latin communism. Brazil's triumph over communism vindicates the belief of the majority of the American people that Latin Americans do not want communism nor will they stand by and watch its dark shadow envelope their country and continent.

The Brazilian anti-Communist revolution is a timely answer to those who, simply because communism may have gained a foothold, would give up and abandon the firm position of our Government for freedom and democracy and against communism. The greatest myth is the one that some are trying to generate that the Cuban people do not want to shed the yoke of oppression that grips their country. Those who try to build this myth had better take another look at the freedom forces in Brazil and all of this continent.

It should be the policy of this Government to continue to do everything in our power to isolate Castro from the rest of this hemisphere and have a "Freedom Curtain" surrounding Communist Cuba from which Castro cannot break through or penetrate.

It is for the Organization of American States with the strong support of our Government to act on the Venezuelan charges against Cuba. It is time to impose stricter sanctions on Castro and not to relax them.

In short, it is time for our country to step up its campaign against the menace which is Fidel Castro. It is a time for action rather than a time for debating invisible and manufactured myths. Let Brazil be a first example to those who feel we must compromise with communism in this hemisphere. Freedom has won a battle. Let us proceed to win the war.

## AMENDING ATOMIC ENERGY COMMISSION ACT OF 1954

(Mr. SLACK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SLACK. Mr. Speaker, I wish to call to the attention of my colleagues legislation which I introduced today to amend the Atomic Energy Act of 1954, as amended.

Basically, this legislation would limit future Government expenditures in connection with the civilian nuclear power field to fast breeder reactors. There are urgent and compelling reasons why this should be done. I urge the Members of this House to study this legislation most carefully.

Let me make it clear, Mr. Speaker, that this legislation is not directed at hampering or hindering research and development work by the Atomic Energy Commission directed toward the realization of the full potential of civilian nuclear power. Rather, its primary objective is to bring about a new priority for the work to be undertaken which will be in the long-term national interests, but will not mitigate against the fossil fuels upon which the Nation now depends and must continue to depend for the next century or so for its primary source of electric power.
